

# PALADUK PWN CONCEPTION SERVEUR

Lancement du server

```
# fabrication du flag
echo "NHM2I{PWn3D_S0_Eazyli}" > flag.txt

# lancement du server
# schedule_script.sh
vi schedule_script.sh
chmod +x schedule_script.sh
# oneline
# while;do; ncat -l -p 7777 -c "python3 paladuk_prompt.py"; done;
```

schedule\_script.sh:

```
#!/bin/bash
echo '[+] PALADUK PWN SERVER OPENED ON PORT 16003'
while true
do
    ncat -l -p 16003 -c "python3 paladuk_prompt.py"
done
```

Add crontab

```
crontab -e
# Tout les 5 mins
# */5 * * * * /bin/bash /home/schedule_script.sh
crontab -l
```
